EDUCATION

Bangalore Institute of Technology — B.E. in Computer Science & Engineering

2022 – 2026

Semester 7 • CGPA: 8.85 / 10.0 • Quantitative Aptitude: 90/100 • Logical Reasoning: 92/100

Bengaluru, India

TECHNICAL SKILLS

Languages & Core: Python (Advanced), Java (Proficient), C++, SQL (PostgreSQL/MySQL), JavaScript, Go

Foundations & Algorithms: Data Structures & Algorithms (DSA), System Design, Object-Oriented Design (OOP), Operating Systems, DBMS

Frameworks & Tools: React.js, FastAPI, Spring Boot, Docker, Redis, Git, Linux CLI, REST APIs, Microservices

Cloud & Infrastructure: AWS (EC2, S3, RDS), Docker Containerization, CI/CD GitHub Actions

WORK EXPERIENCE

Razorpay — Software Engineering Intern (Backend Infrastructure)

Jan 2025 – May 2025

- Architected an asynchronous payment webhook retry queue using Redis and Python Celery, reducing event delivery failures by 38%.
- Implemented idempotent transaction consumer pipelines in FastAPI handling over 140,000 requests/day with sub-80ms p95 latency.
- Integrated OpenTelemetry distributed traces and Prometheus metrics for real-time latency monitoring across 8 microservices.

FEATURED ENGINEERING PROJECTS

Distributed Cluster Task Scheduler — Go, Docker, gRPC, Redis, Raft

Personal Project

- Designed a fault-tolerant master-worker distributed job orchestrator executing cron and batch tasks across 5 worker container nodes.
- Implemented Raft consensus heartbeat to ensure automatic master failover within 450ms during network partitions and node crashes.
- Benchmarked worker throughput to process 12,500 tasks per minute with zero task duplication using Redis distributed locks.

PlaceIQ - AI Placement Predictor & Interview Coach — Python, FastAPI, Scikit-Learn, React

Hackathon Winner

- Built a 5-fold cross-validated Stacking Classifier (RF + XGBoost + LightGBM) predicting candidate placement probability with 95.8% accuracy.
- Created real-time conversational AI mock interview room with local Ollama Llama-3.2, WebRTC audio streaming, and SHAP explainability.
- Designed multi-tenant institutional TPO command center managing early warning alerts and cross-job gap analysis across 20+ corporate roles.

CERTIFICATIONS & COMPETITIVE CODING

- AWS Certified Solutions Architect – Associate** (Validation ID: AWS-8492048, Score: 870/1000)
- LeetCode Knight Badge:** Solved 380+ Data Structures & Algorithms problems (Rating: 1845, Top 6% globally).
- Smart India Hackathon 2024:** Top 10 National Finalist out of 1,200 participating university engineering teams.
- Open Source Contributor:** Authored 2 PRs to popular open-source Go microservice tooling.
